

# Narrative Practice in Facilitation

## Re-authoring Conversations & Conflict Mediation

Institute of Narrative Practice

This continuing education program is designed for experienced and advanced professionals, who are ready to add depth to their practice and a richer structure to their client relationships.

**You will learn advanced tools developed in the therapeutic field adapted for facilitation and coaching to expand your toolkit and increase your impact with groups and individuals in meaningful ways.**

In this workshop we will explore ways in which Externalization can inform your facilitation and coaching skills as well as your program designs. Externalization is a key concept in narrative practice. It is a way to talk about the issue, in which the person is not the problem; the problem is the problem. We will learn powerful questions to examine the effects of the problem, and the values that drive the conflict and/or issue.

At the end of this workshop, you will be able to:

- Ask powerful questions to create change
- Inspire new perspectives
- Create safety to go deeper
- Handle conflict situations with ease
- Use Externalization as an inquiry tool

I look forward to sharing my passion for the powerfulness of Narrative Practice with you.

Warmly,  
Trine

### Fee

### Trine Blücher

My professional passion is leadership & professional development through group processes. With a background in business, my practice focuses on teaching narrative practice and theory to facilitators, coaches, counsellors and therapists, professional supervision, executive coaching, leadership group processes, and corporate communication and cooperation projects. I have been a certified facilitator with YPO since 2011.
